DESIGN
HOTELS

The development of design-led hotels continues to grow in importance. Many of them have been rapidly opened, which is close to several noteworthy travel destinations in the past decade.

It is undeniable that a growing demand for design-led hotels comes with a buzzing social and entertainment scene, which energizes the hospitality and attracts both savvy travelers and residents alike. In May/ June 2014 issue of NOW Travel Asia, up-to-date information of Asia's design hotels will be officially presented as part of Asia's Top 100 Design Hotels, including visual design concepts, design inspiration, and outstanding features of the hotels. As we are dedicated to actively providing the best holiday options that are available in the Asian continent, only thoughtful information regarding luxury products and services is delivered to our readers. Consequently, their desire for convenience and special travel experience has always been our concern.

NEO-MOROCCAN DESIGN

Marrakesh Hua Hin Resort
and Spa
Hua Hin, Thailand

DISTINGUISHING ITSELF FROM MODERN AND TRADITIONAL THAI DESIGN, THE ALL-SUITE MARRAKESH HUA HIN RESORT & SPA HAS STUNNINGLY COMBINED EXTRAORDINARY ELEMENTS, EXCLUSIVE CHARACTERISTICS, EXOTIC CHARMS AND ALLURING ARCHITECTURE OF NEO-MOROCCAN TOGETHER RIGHT ON THE BEACH FRONT OF HUA HIN. Every detail has been thoughtfully and finely polished, from intricate lines of arches, deep and rich colors, to extreme attention to sultry textures and patterns, creating a unique ambience of the far-away land. While the opulent suites, restaurant, beach bar and mystic spa provide superior indulgences to sojourners, they capture the essences of Moroccan culture with lavishing décor, colors, and luxury amenities.
